- excursion

Participants to the meeting

Workshop 3 interests a large number of scientists of the geothermal community :

- 52 registrants, coming from
 - 12 countries and
 - 4 continents
- 3 sessions during 2 days of meeting
- and >24 planned contributions

Every registrant has received when arriving in Ittingen:

- A book of contribution, with preliminary extended proceedings
- A list of participants
- A Timetable
- A receipt...

...and will get after the conference:

- A CD-ROM with their final contributions
- conference will still be online, with contributions (slides-papers...)

Please mention explicitly if you don't want your material to be on free-download on the internet

Practical organization (2/3)

SESSION I: Review of stimulation techniques

Chairperson: Ernst Huenges

SESSION II: Case studies on reservoir stimulation

Chairperson: Sverrir Thorhallsson

SESSION III: Reservoir characterization during stimulation

Chairperson: Thomas Kohl

+

DISCUSSION!
