## ENhanced Geothermal Innovative Network for Europe

**Announcement Workshop 1:  
Defining, exploring, imaging and assessing  
reservoirs for potential heat exchange  
Potsdam, 6-7 November 2006, organized by GFZ Potsdam and CNR-IGG**

### Thematic sessions

- Signatures of temperature field for defining and exploring potential geothermal reservoirs
- Signatures of fluid transport in Earth's crust
- State of the Art in the exploration of potential geothermal reservoirs
- Processes in geothermal reservoirs

Each session will be introduced by invited speaker(s), followed by poster presentations and plenty of time for discussion.

Please find detailed informations, online abstract submission and registration forms at <http://engine.brgm.fr> following the link *conferences&workshops*.
